

ALLOWABLE ANNUAL RENT INCREASES

A landlord may increase the tenant's base rent once every 12 months by the amount of the allowable annual rent increase without filing a petition at the Rent Board. Effective March 1, 2015 through February 29, 2016, the allowable annual increase amount is 1.9%. This amount is based on 60% of the increase in the Consumer Price Index for All Urban Consumers in the Bay Area, which was 3.2% as posted in November 2014 by the Bureau of Labor Statistics. To calculate the dollar amount of the 1.9% annual rent increase, multiply the tenant's base rent by .019. For example, if the tenant's base rent is \$1,500.00, the annual increase would be calculated as follows: \$1,500.00 x .019 = \$28.50. The tenant's new base rent would be \$1,528.50 (\$1,500.00 + \$28.50).

Table with 2 columns: Effective Period and Amount of Increase. Lists rent increase percentages from 1983 to 2016, including special periods in 1992 and 1993.

* Caution: Only ONE of these two increases may be imposed for the period from March 1, 1992 through February 28, 1993, based on the tenant's anniversary date or date of last increase.
